

Hi, I am going to be making the Siyum on Shas Mishnayot in honor of Granny Razel on behalf of everyone who participated. It's really an amazing thing that everyone- family, friends, and others came together to learn Mishnayot לעילוי נשמת Granny Razel. It's a common practice to learn in honor of someone who was Niftar because Neshamot can still benefit from our learning even after the physical body has died. The word Mishnah and Neshama are composed of the same hebrew letters which represents a special connection between the two and thus is the reason why we learned Mishnayot in honor of Granny Razel. While learning on behalf of a person who was Niftar is a special Zechus to help their Neshama, everyone who knew Granny knows that her Neshama didn't need any assistance. She was pure, genuine, and full of kindness. But despite this fact, all of the people who participated in this Siyum are representative of all of the family, friends, and other people whom Granny Razel had a lasting impact on.
